

Sysco Solutions Partners

Company Description:

Phoenix Domes is based on Phoenix Farm, Salt Spring Island in Western Canada and is a distributor of geodesic domes for events, dwelling and glamping!

Value:

Geodesic Domes are magically beautiful, incredibly strong yet they can fit in the back of a truck or van and be set up in a few hours! A Dome can be a stunning dining space, or a glamorous event venue; the possibilities are endless.

Advantage:

Geodesic domes are composed of inter-connected triangles that lend superior structural strength. Father of the modern geodesic dome, Buckminster 'Bucky' Fuller, demonstrated the difference in strength between rectangles and triangles by applying pressure to both structures... the triangle proved to be twice as strong and remained rigid, while the unstable rectangle collapsed.

Product offering:

We offer a wide variety of elegant and intelligent geodesic domes to meet your needs

Sysco
Exclusive
Pricing:

**Sysco customers receive a
25% DISCOUNT
OFF THE PURCHASE OF A DOME.**
